MARV KAV<sup>®</sup>

how to get the  
**best skin** in the

# world

Your skin as you know it is about to change. It's no surprise that a personalized daily skin care program, made up of a premium collection of age-fighting products, can begin to **transform the look of your skin.** But it doesn't stop there. You can see even better results by targeting those spots that may need a little extra attention. All it takes is a little know-how. **Get ready; the complexion you've always wanted is only a few steps away.**

# anti-aging advances

You're given fresh, new skin cells about every two to three weeks. But as we age, this skin cell renewal process slows. Fewer old cells are shed, and skin becomes more susceptible to free radicals and sun damage. Skin becomes less elastic, more dull, and fine lines and wrinkles appear. Fortunately, there are modern advances in skin care that not only help combat the signs of aging, they can even help reverse it. So invest in your skin today for a more beautiful, younger-looking tomorrow.

> Are you results-driven?

Use the Miracle Set every day, and you could see results like these as seen by a dermatologist on panelists after a 12-week clinical study:

- 83%** had a reduction in fine lines and wrinkles.
- Up to **25%** improvement in skin elasticity.
- 100%** had softer, more supple skin.
- 46%** improvement in more even skin tone.

The luminous, even complexion you desire reveals itself from the moment Mary Kay® MelaCEP™ Whitening Primer glides on. Silky smooth creme application transforms to moisture-locking powder texture.

On its own, after completing your skin care regimen, or the perfect palette for foundation and color cosmetics, the unique Light Diffusion System conceals imperfections and optimizes brightness. The first and last step to unblemished beauty, MelaCEP Whitening Primer is the first and last word in vibrant radiance.

## MelaCEP™ Whitening Foundation Primer with SPF 15 NEW

Formulated with ingredients that have light-diffusing benefits so skin looks more even toned, plus effective sunscreens that help protect skin from future damage. Like all the products in the MelaCEP™ Whitening System, Foundation Primer with SPF 15 contains the MelaCEP™ Whitening Complex, a patent-pending blend of four key ingredients; Kakadu Plum Extract - rich source of Vitamin C , Ferula Foetida Extract - antioxidant , Helianthus Annuus Seed Extract - helps protect against UV damage and Lactobacillus Ferment - skin conditioning ingredient.

Foundation primer helps makeup apply more evenly and smoothly because it helps even out skin imperfections. It provides the perfect base for the application of foundation and color products. Over time, humans have lost the ability to naturally synthesize vitamin C. As a result, we need to obtain this important vitamin through our diet. In the skin, vitamin C is very important since it directly scavenges free radicals as well as aids in the synthesis of collagen and in defending the supportive network that gives skin its definition and fullness.

The added beauty of using Replenishing Serum+C is its **four-week vial system** that maximizes product freshness while allowing you to pump out the right amount of collagen-boosting product every time for consistent application.

40s

If you've lived a life of laughter and love, then you'll see the imprinting of those facial expressions. They're nothing the right moisturizer and eye cream can't address. Besides, who says you have to be young to look fabulous? You can look as young as you feel.

50s  
and beyond

Your enthusiasm for life and your commitment to taking care of your skin can help you look gorgeous for your age, no matter what the number may be.

# BUZZworthy

Mary Kay® Mineral Powder Foundation is a great friend to your skin. Because mineral-based foundations are famous for their oil-absorbing properties, ease of application, excellent coverage and adhesion to skin. Plus, they prove their loyalty, refusing to give away your age by settling into fine lines and wrinkles. Sounds like the start of a beautiful friendship.

## The Benefits of Minerals

Every woman wants perfect, flawless skin. Now with the sweep of a brush, you can make lines and wrinkles and other imperfections seem to disappear. This weightless powder blends effortlessly for a natural, flawless look. And it's transfer-resistant so it won't fade away midday.

**Mary Kay® Mineral Powder Foundation**  
Net. Wt. .28 oz | P 850

## The Must-Have Brush

The secret to perfect application is using the perfect brush. The Mineral Foundation Brush is custom-designed to work with the foundation. They're made for each other to deliver results like you've never seen before. No other brush you own will even come close. The bristles are soft, natural hair that are short and flat across the top, so you get the right amount of foundation and right level of buildable coverage.

**Mary Kay® Mineral Foundation Brush | P 650**

## application tips

**Here's how to apply the foundation:**

- Cleanse and moisturize your face. Allow your moisturizer and any other treatment products to become dry to the touch.
- Unscrew the jar lid; hold the sifter with one hand while gently lifting the clear sifter label at an angle with your other hand.
- Once the sifter label is removed, screw the lid back onto the jar and gently shake jar to dispense the foundation

into the sifter. Remove the lid and lightly dip your Mary Kay® Mineral Foundation Brush into the powder and tap against the rim of the jar to remove any excess. You do not need to use all the powder that is in the sifter – a little goes a long way.

- Swirl the Mary Kay® Mineral Foundation Brush inside the lid so that the powder is worked into the bristles.

- To apply, start in the center of the face and work your way out on either side toward the hairline and along the jawline,

blending it well. For a light, natural coverage, a single thin layer should be enough. For increased coverage, repeat the application process, applying the foundation in thin layers until you reach your desired coverage level.

- Keep in mind that the Mary Kay® Mineral Foundation Brush was created to work exclusively with this foundation. The bristles are soft, natural hair that picks up a precise amount of powder, releasing it evenly as you sweep and swirl.

# soft radiance

Use just four products to bring out a natural-looking glow in a snap. Apply Mineral Eye Color Amber Blaze, starting at the outer edge of the eye crease and blending inward across the entire eye. Then add a generous application of Lash Lengthening Mascara™. Balance out gorgeous, golden eyes with Strawberry Cream cheek color applied to the apples of cheeks and Rose tinted lip balm.

## mineral cheek color

When applying cheek color, simple is best. Sweep mineral cheek color on the apples of the cheeks and blend upward along the cheekbones toward the hairline. Stop at the top of the cheekbones, just below the temple. Be sure to start light. You can always build more color.

Why use cheek color? Foundation can cover up a woman's natural flush. Cheek color brings back that youthful glow and brightens the appearance of your face.

**Mary Kay® Mineral Cheek Color | Net Wt. .18 oz. | P420**

Remember it is called "cheek" color for a reason. To add glow to the rest of the face, check the mineral highlighting powder and mineral bronzing powder.

### Mary Kay® Mineral Highlighting Powder

illuminates the skin for a more radiant tone. Use the shimmer based Pink Stardust on areas of the face you want to highlight.

Our makeup artists suggest applying:

- on the tops of cheekbones
- along brow bone
- above the center of the upper lip to add definition and give lips a pouty look.

### Mary Kay® Mineral Highlighting Powder

Net. Wt. .16 oz. | P700

### Mary Kay® Mineral Bronzing Powder

gives you the versatility to contour the face or get a sun-kissed glow. It's like getting a healthy touch of summer anytime. The shimmer shades add natural highlights to the complexion.

### Mary Kay® Mineral Bronzing Powder

Net. Wt. .16 oz. | P700

## applicators

### Use brushes to get a different look:

- Hard lines make eyes appear smaller. Use the Eyeliner/Eyebrow Brush dipped in an eye color to blend and soften eyeliner using soft strokes.
- With the Eye Crease Brush, it's easy to apply color precisely where you want it.
- Blending colors seamlessly is a must in getting a professional look. The Eye Definer Brush helps to blend away any obvious lines between shades.

### Eau de Parfum vs. Eau de Toilette

You can't live without your eau de parfum, just like you can't live without your little black dress and classic string of pearls. Everyone should have a signature scent that defines her personality. But for everyday, sometimes you've got to break away. That's the beauty of an eau de toilette fragrance – it's light, fresh and carefree – just like your most comfortable pair of jeans or your favorite sundress. So you can have fun matching a new scent to your mood or your outfit, you decide.

Mary Kay® Eau de Toilette fragrances are simple, yet, sophisticated. So go ahead, indulge in life's little luxuries.

# great gifts are universal

# **pink** changing lives<sup>SM</sup>

Mary Kay is changing the lives of women and children around the world. Here are a few ways we're making a difference in the communities where we live and work.

## > **Pink Doing Green<sup>SM</sup>**

The Environment Protection Bureau (Hangzhou) named Mary Kay China an Advanced Company in Environment Conservation, 2007. Employees of Mary Kay China planted trees in the suburb of Boat Park outside Shanghai and picked up trash along scenic areas around Hangzhou.
